

SAT/ACT Cut Scores: Effective 2006

Students who have submitted SAT or ACT scores may be exempt from the English, mathematics, and/or reading placement test:

In order to be exempt from the reading and writing placement tests, the students must have a score of at least **500** on **both** the SAT Critical Reading **and** the SAT writing tests. ACT scores of **21** on **both** the English **and** verbal sections exempt the student from placement tests in reading and writing.

In order to be exempt from the mathematics placement test, the student must have a score of at least **500** on the SAT math test. An ACT score of **21** in math exempts a student from taking the math placement test. Students must also have completed Algebra I, Algebra II, and Geometry with grades of “C” or better before enrolling in MTH 151, 152, 157, or 163.
