\* Latest Effective Catalog Year 'Default' refers to the 2002-2003 MECC Catalog Requirements used initially to setup the Degree Progress Reports for programs that existed at that time. However, the effective dates used were 5/1/1988. If the Degree Progress Report has been updated, the next column(s) will indicate the term(s) the requirements changed. If the Degree Progress Report has been updated more than twice, the three lasted terms will be indicated. New Programs added since conversion to PeopleSoft (2033) will be indicated by 'New – Term'.
